Paul,

Our reclamation list carries B-14 mine because of it being "re-impacted". B-14 was mined in the 1940's. Some years back, American Gilsonite Company (AGC) installed a water pump in B-14. AGC did not carry out mining operations in B-14 and does not consider B-14 re-impacted. I request that B-14 be removed from the reclamation list or have your agency demonstrate why AGC is required to reclaim this site.
